WELDING
INSPECTION
SERVICES

Statement of Quality Policy

At Welding Inspection Services Limited we are fully committed to continuous improvement in every aspect of our business.

Our aim is to provide a complete engineering inspection service which will meet or exceed our Customers expectations.

In order to achieve this, we have implemented the following quality objectives:

1. To continually monitor all our activities throughout the company.
2. To continually train our staff in new technology and new work techniques.
3. To increase safety awareness amongst employees.
4. To computerise our operations to the maximum degree.
5. To diversify into more specialised aspects of NDT.

At W.I.S. Ltd. we believe our business development plans will be successful only if we continuously strive to improve in every aspect of the Business, and each of our employees are empowered and encouraged to contribute to this process. All employees are adequately and continually trained to perform their duties to ensure focus on improvement and customer satisfaction.
